Historic, Archive Document

Do not assume content reflects current scientific knowledge, policies, or practices.

HOSE who have previously received our catalogues will miss the illustrations in this issue. We believe that the plant-purchaser knows what he wants, and is most interested in what we have for sale, the sizes and prices, printed in plain, large type, and does not depend to any extent upon

catalogue illustrations for guidance. Anyone seeking advice on garden or landscape matters will please refer to the inside back cover page of this catalogue. We will send, on request, a list of carefully selected books, covering the entire field of horticulture.

Important to Purchasers

PRICES-NOTE CAREFULLY

Single-rate prices are for less than five of a kind.

Ten-rate prices are for five or more, and less than twenty-five of a kind.

Hundred-rate prices are for twenty-five or more, and less than 250 of a kind.

Thousand-rate prices are for 250 or more of a kind.

We cannot agree to fill small orders for a few of a kind for less than single rates, as it oftentimes takes one over many acres of ground to fill a single order, and the proportionate expense of digging and packing orders must be taken into account.

SPECIAL DISCOUNTS ON TREES AND PLANTS to those who send us orders for less than five of a kind, shipped at the same time, amounting to the following:

Orders amounting to \$10, a discount of 5 per cent Orders amounting to \$30, a discount of 10 per cent Orders amounting to \$50, a discount of 15 per cent **FROM SINGLE-RATE CATALOGUE**

Orders amounting to \$75, a discount of 20 per cent

Orders amounting to \$100, a discount of 25 per cent

will be charged for according to quoted price without discounts.

Special discounts on larger orders. Send us list for estimates.

Trees and Plants individually selected at our nurseries, or special quotations,

PRICES ONLY.

TERMS. Cash in advance from unknown parties, or satisfactory reference. We send invoice at time of shipment of order, and should any error be noticed on receipt of goods, notify us immediately, and we will do all in our power to see that it is rectified.

HOW ORDERS ARE SHIPPED. We ship large trees and other bulky orders by freight, unless otherwise requested. Medium-sized orders can be shipped by express to advantage; this is especially advisable where immediate arrival is desired. All orders are delivered free to local freight or express companies and in the city. We are not liable for delays by forwarding companies. If stock is not promptly received, notify us and we will trace.

EKING. We charge for packing at cost, when stock is purchased at hundred-rate prices, or in case of large, bulky stock, or where we ship with carefully preserved balls of earth. Otherwise we make no charge for packing.

HOW TO REACH US. Our nursery and office are located at EDGEWOOD, Edgewood Avenue, just beyond Edgewood Park. See Guide Map on inside back cover.

EARLY ORDERS. To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice, without doing an injustice to others who have their orders previously booked. In fairness to all, we have adopted the practice of filling orders in the rotation received, unless orders reach us far enough ahead of the packing season, with instructions to ship at a given date, so that we can arrange a special shipping date. So we again say-place your order as far in advance of shipping as you possibly can, stating when you would like stock sent.

IMPORTANT NOTE. Visitors are always most cordially welcome. During the spring and fall there are short intervals, however, when it is quite impossible for us to devote much time to showing parties about the nursery, as these are the most strenuous shipping periods of the entire year.

TRANSPLANTING DIRECTIONS. This instructive pamphlet we are pleased to send on request.

THE ELM CITY NURSERY COMPANY

EDGEWOOD, Edgewood Avenue, NEW HAVEN, CONN.

The following lists are so arranged that quick reference can be made to sizes and prices of the stock we have to offer. We have used a popular classification,

TREES. Pages 1 to 11. Shedding foliage in the Autumn. Example, Maple.

EVERGREENS. Pages 12 to 18. Foliage remaining on tree throughout the year. Example, Norway Spruce.

BROAD-LEAF EVERGREENS. Pages 19 to 21. Foliage remaining throughout the year. Example, Rhododendrons.

SHRUBS. Pages 23 to 34. Shedding foliage in Autumn. Example, Lilac.

VINES. Pages 35 to 37. Example, Wistaria.

HERBACEOUS PERENNIALS. Pages 38 to 52. Hardy permanent roots. Above the ground the growth is renewed annually. Example, Paeonia.

HARDY ROSES. Pages 53 to 54.

FRUIT DEPARTMENT. General list of fruit trees and small fruits. Pages 55 to 59.

TYPE, under The Botanical names are inserted alphabetically in THIS their respective classes, and refer to the popular, common or English names.

Examples—ACER, see Maple; PICEA, see Spruce, etc.

Bridgeport, Conn., October 20, 1913.

The Linden trees and Barberry came O. K. Enclosed find check for ——. You certainly have a good system in your business. You packed and shipped the trees in better shape than any I have ever received. $T.\ R.\ G.$

Evergreens are a specialty with us and our collection includes many rare and beautiful specimens as well as a large stock of the more common sorts. We are fortunate in having soil conditions very favorable for their development, both of top and root. We transplant and root-prune all our evergreens frequently, which practically insures their successful transplanting, even of the larger specimens.

How to Ship Evergreens.

We recommend hauling by teams when delivery is within economical distance. Small orders to distant points can be boxed for shipping by freight or express, but where a number of specimen trees are to be sent, we advise shipping in bulk in car lots; this saves the cost of boxing and insures their arrival without injury. We gladly advise, if requested, the shipping method we recommend for individual shipments.

Foractry Evergrooms			

Forestry Evergreens.

We strongly recommend the use of either two-year old seedlings or three-year old transplants for forest plantation. The latter are much stronger and better able to withstand severe conditions. Inquire for Special list.

Boston, Mass., August 27, 1913.

I had 50 Arborvitae (Siberian) Specimens of you last Spring. Your stock was very well dug, burlapped and packed.

H. L. M.

THE great beauty of the broad leaf evergreens makes them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad, attractive leaves show out most effectively during the parts of the year when many trees and plants are without foliage. There is practically no end to the charming results that can be gained by the liberal use of this class of plants. Groupings generally give most attractive effects and the plants themselves do much better when planted this way.

Good, fertile loam should always be used in preparing for this class of plants. Sufficient water should be supplied at least until they become well established so that they will not suffer from dryness. This does not necessarily mean frequent watering.

watering.

COMMON AND BOTANICAL NAMES	Each	Per 10	Per 100
ANDROMEDA CATESBAEI, see Leucothe. ANDROMEDA FLORIBUNDA (Pieris). This charming low-growing Evergreen is most fitting as a fo eground for Rhododendron plantings and rockery work. Arbutifolium. Pale rose-pink. Myrtifolium. Delicate rose. Ferrugineum. Rosy red. Punctatum. Clear pink. Hirsutum. Light rose-pink. Wilsonianum. Clear rose.

RHODODENDRON MAXIMUM (Rose-Bay).

This native broad-leaf strictly hardy evergreen affords splendid opportunity for no end of charming effects. In large public parks and private estates they can used by thousands, and even within the more restricted area of the usual city lot many chances for their liberal use are sure to arise. This beautiful Rhododendron is perfectly hardy and thrives luxuriantly even in the shady corner and under trees. Our stock is collected high up on the tablelands of the Allegheny Mountains where it is so very cold and exposed to such severe weather conditions that even the native trees are dwarfed in growth.

SHIPPED FROM NURSERY.

 Selected specimens, 5 to 7 feet. \$5.00 to \$25.00, according to individual merit.

 Each. Per 10. Per 100.
 Each Per 10. Per 100.

SHIPPED DIRECT FROM THE MOUNTAINS.

Only in car lots of 100 or more, in assorted sizes if preferred. 100 to 400 to a car.

5 to 6 feet.......Per 100.\$200.00 3 to 4 feet......Per 100 \$100.00
4 to 5 feet......Per 100 .150.00 2 to 3 feet......Per 100 .75.00

NOTE—Assorted sizes from 1 to 6 feet just right for effective massing at \$100.00 per 100

The freight rates per car vary with the distance of destination from the collecting grounds. The rate to New Haven, Conn., is \$27.50. We will promptly quote charges to any given point upon request.

Formal Trees and Shrubs

THE ELM CITY NURSERY COMPANY

THE popular demand for formal trained trees and plants is now very great. We have gathered together from various European and other sources a large collection of splendid specimen Bay-trees, Box, Holly, etc., adaptable to this special purpose. They are grown in tubs, boxes, etc., and can be shipped any time.

Bay Trees (Laurus Nobilis).

These dignified stately plants are without rivals for many formal uses. They will stand almost every summer exposure and several degrees of frost without injury. Now in tubs and can be shipped any time.

European Hollies, Yews, Laurels, Privet, Hydrangeas.

We have assembled a splendid collection of these plants in various varieties and sizes so useful in creating charming garden effects. Inquire for special list of stock on hand or better, visit the nursery and see them. These are mostly in tubs and pots and can be shipped any time.

Special Japanese Exhibit.

A rare collection assembled personally by one of the members of the Company while in Japan recently, is on exhibition at the Nursery. The individual specimens are not for sale singly, as the collection is too valuable to be broken up. A price will be considered, however, for the entire collection. A number of these trees are of great age and all of them are most interesting in their forms and expressions—a rare treat well worth seeing.

VINES

HARDY VINES are invaluable for covering porches, pergolas, walls, fences, also for screening objectionable views. Their graceful habit and great variety of beautiful flowers and foliage make them charmingly attractive all through the season.

A Gift of Vines for Churches and Public Buildings.

We will be pleased to donate from 3 to 10 nice stocky plants of Ampelopsis Veitchii (Boston Ivy). This is the vine that grows so attractive on walls and turns a brilliant red in the Fall. The understanding is that these vines are to be planted about the foundation wall of the church or public library buildings and given necessary care for their welfare. We would prefer applibuildings and given necessary care for their welfare. cations authoritatively signed.

Boston, Mass., February 2, 1914.

"I am very glad to say that all my dealings with The Elm City Nursery Co. have been entirely satisfactory. All of the stock which you have sent me from time to time is doing well, and whenever any mistake has been made I have always found you prompt to rectify it. Please send copy of your latest catalog as I wish to send an order for Spring planting." Very truly yours, E. N. F.

These include such splendid garden plants as Pæonies, Iris, Larkspurs, etc. The great ease with which these plants can be grown, their great variety of color and season of bloom makes them indispensable for the garden. We are making them a specialty at the nursery, growing them in large quantities.

In arranging this list we have used the popular or common names as far as

seemed consistent.

The following Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock can be potted to order and held for any delivery date.

	Each	Per 10	Per 100
*Very strong Field Clumps (Express or Freight)	30c.	\$2.50	\$20.00
Strong Field Grown, usual size (Express recommended)	20c.	1.50	12.00
Smaller size (mostly field grown) (Post-paid at single rates if			
requested)	15c.	1.00	8.00

Note. We wish to call your attention to our very low prices on Coreopsis, Gaillardias, Hollyhocks, Larkspurs, Pyrethrums and Sweet William.

ACHILLEA, see Yarrow.
ACONITUM, see Monkshood.
ADAM'S NEEDLE, see Lilies.
AEGOPODIUM PODAGRARIA

AEGOPODIUM PODAGRARIA VARIEGATA. One foot. Splendid for covering the ground under trees. Will grow anywhere.

ALTHEA, see Hollyhock.

ALYSSUM SAXATILE (Golden tuft). ½ to 1 foot. May and June.

Forms a clump of velvety foliage, flowers of the richest yellow, fragrant.

*AMSONIA ANGUSTIFOLIA. 2 to 4 feet. May. Glossy, willow-like leaves, forming an attractive bush of foliage, turning rich yellow in the fall. Flowers deep blue deep blue.

ANCHUSA ITALICA DROPMORE. 4 feet. June and July. Without doubt the finest blue-flowered herbaceous plant in existence.

ANEMONE JAPONICA ALBA. (Japanese Windflower). 2 to 3 feet. August to October. Large pure white flowers, very free flowering.

ANEMONE JAP. MÖNT ROSE. 2 to 3 feet. August to October. Semi-

double, deep pink flowers.

ANEMONE JAP. QUEEN CHARLOTTE. 2 to 3 feet. August to October.

Very large, semi-double, silvery pink, one of the best.

ANEMONE JAP. RUBRA. 2 to 3 feet. August to October. Rosy-red flowers,

freely produced.
ANEMONE JAP. WHIRLWIND. 2 to 3 feet. August to October. Large, semi-double, pure white flowers, very free flowering.

ANEMONE PENNSYLVANICA. 1 to 1½ feet. June. Large, single, pure

white flowers.

ANTHEMIS TINCTORIA ALBA. 2 to 3 feet. July to October. Creamy white, otherwise similar to the following, both being very desirable and of easiest culture.
ANTHEMIS TINCTORIA VAR. KELWAYI. 2 to 3 feet. July to October.

Brilliant yellow daisies in great masses, splendid for cutting.

AQUILEGIA, see Columbine.

ARABIS, see Rock-Cress.

ARENARIA, see Sandwort.

ARMERIA, see Thrift.

ARTEMESIA LACTIFLORA. (New). 4 feet. July to October. 35 cents each.

A charming plant bearing spikes of fragrant white flowers, beautiful dark

green foliage. ARTILLERY-PLANT, see Dictamnus.

ARUNCUS, see Spiræa.
ARUNDO DONAX, see Grasses.
ASCLEPIAS, see Butterfly-weed.

ODORATA (Sweet Woodruff). 6 to 8 inches. May and June. ASPERULA White

ASTER ALPINA. 6 to 8 inches. May to June. Low growing plant; fine for borders; effective for rockery. Flowers bright purple, rich yellow center. FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE ABOVE.

THE ELM CITY NURSERY COMPANY

ASTER NOVAE ANGLIAE VAR. ROSEA. 2 to 5 feet. October to November.

A variety of our native New England aster, with very large flowers in the greatest profusion. Color, clear rosy red with rich golden center.

ASTER STOKES (Stokesia Cyanea), 1 to 2 feet. July to September. Double, light pleasing blue. Very desirable.

ASTER TATARICUS. 3 to 4 feet. October and November. Blue flowers.

Very effective.

ASTILBE, see Spiræa.

AURATUM LILY, see page 44.

BABY'S BREATH (Gypsophila Paniculata). 3 to 4 feet. July to October.

Produces a mass of small white flowers so disposed as to form a veritable cloud of bloom.

cloud of bloom.

BABY'S BREATH DOUBLE (Gyp. Pan. Fl. Pl.). 3 to 4 feet. July to October. A new form and very desirable.

BABY'S SLIPPER, see Lotus.

BALLOON FLOWER, see Platycodon.

*BAPTISIA AUSTRALIS (False Indigo). 4 to 6 feet. June and July. Clear blue. Foliage effective and lasts well through the season.

BEARD TONGUE, see Pentstemon.

BEE BALM (Monarda Didyma Var. Superba). 2 to 3 feet. July to October. One of the old garden plants which will ever be popular. Brilliant scarlet flowers of spicy fragrance.

BELEMCANDA CHINENSIS, see Lily, Blackberry.

BERGAMOT, see Bee Balm.

BELEMCANDA CHINENSIS, see Lily, Blackberry.

BERGAMOT, see Bee Balm.

BETONY, see Stachys Betonica.

BLEEDING-HEART, see Dicentra.

BLUEBELLS, see Campanula.

BOCCONIA CORDATA (Tree Calamdine). 5 to 8 feet. August and September. Spikes of feathery white. Splendid background plant.

BOLTONIA ASTEROIDES. 6 to 8 feet. August and September. Tall plant, producing great masses of aster-like flowers, white with yellow center.

BOLTONIA LATISQUAMAE. 6 to 8 feet. August to September.

Similar to above excepting color of bloom, which is light lavender, deep

Similar to above excepting color of bloom, which is light lavender, deep yellow center

yellow center.

BOLTONIA LATISQUAMAE NANA. 12 to 15 inches. August to September. A dwarf form of the above. A new and desirable variety.

BULBS, see Lilies, page 44.

BUTTERCUP DOUBLE (Ranunculus Acris Var. Fl. Pl.). 6 to 12 inches. May and June. Of the brightest yellow. Foliage very glossy green.

BUTTERFLY-WEED (Asclepias Tuberosa). 2 to 3 feet. July and August. Orange. A very showy native plant and very desirable.

Orange. A very showy native plant and very desirable.

CALLIRHOE INVOLUCRATA (Mallow Poppy). 6 inches, June to October.

Trailing plant with finely cut foliage and rosy purple flowers, flowering all summer, a very desirable plant. CAMOMILE, see Anthemis.

CAMPANULA CARPATICA. ½ to 1 foot. June to October. Blue. Like the other Campanulas, the flowers are bell-shaped. In this species they are produced singly on delicate wiry stems, and are deep blue. One of the best dwarf

plants.
CAMPANULA CARPATICA VAR. ALBA. PANULA CARPATICA VAR. ALBA. ½ to 1 foot. June to October. Similar to preceding otherwise than the color of the flowers, which are purest

CAMPANULA PERSICIFOLIA. June to October.

This species produces its flowers on stems 2 to 3 feet high. The flowers are in loose clusters, and are very effective. Color blue.

CAMPANULA PERSICIFOLIA VAR. ALBA. June to October. Pure white,

very desirable.
CANDIDA LILY, see page 44.
CANDYTUFT HARDY (Iberis Sempervirens). 6 to 12 inches. April and May.

White; evergreen foliage. Makes a nice foreground border plant.

CARDINAL FLOWER, see Lobelia Cardinalis.

*CENTAUREA MACROCEPHALA. 4 feet. July and August. Large thistle-like golden yellow flowers; very attractive.

CENTAUREA, see Dusty Miller.

CERASTIUM BIEBERSTEINII (Snow in Summer). May and June. 6 inches.

Light ciliage reases of white bloom.

Light silvery foliage, masses of white bloom.

FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE PAGE 38.

Warren, R. I., June 10, 1913.

The Christmas Roses were received in good condition bespeaking professional handling of stock and orders.

THE ELM CITY NURSERY COMPANY

RISTMAS ROSE (Heleborus Niger). 6 to 12 inches. October to March.
This very interesting plant really produces its flowers in the winter, out
of doors. Daintily colored begonia-like blooms almost hidden in a clump of
glossy evergreen leaves. It is best to select a place for this plant which is
sheltered from the winds in winter and where it can remain for years undis-CHRISTMAS ROSE (Heleborus Niger). turbed. With a light, temporary frame placed over the plants so as to protect from the snow and ice, the blooms develop far more freely and perfectly. Clumps 50 cents, other sizes see top of page 38.

Also the following Christmas Rose Hybrids.

ALBA OTTO. White, spotted crimson purple.

APOTHEKER BOGREN. Rose purple. Very large.

ATRO-RUBRUM. Reddish-purple flowers.

DR. SCHLEICHER. Large. White inside, green outside.

F. C. HEINEMANN. Large, deep purple, mottled.

FRAU IRENE HEINEMANN. Rose purple outside, greenish white inside.

Frau Irene Heinemann. Rose purple outside, gree Gretchen Heinemann. Rosy-purple, crimson spots. WM. SCHMIDT. Pure white flowers.

CHRYSANTHEMUM LEUCANTHEMUM HYBRIDUM, see Daisy.
CHRYSANTHEMUM MAX. King Edward VII (Moonpenny Daisy). 2 to 3
feet. June to August. Very large pure white flowers, excellent for cutting,
a splendid addition to our hardy plants.
*CHRYSANTHEMUM ULIGINOSUM (The Giant Daisy). 4 to 5 feet. July
to September. Splendid plant for tall effects.
CHRYSANTHEMUM HARDY GARDEN.
The hardy garden types are most valuable for late Fall flowers. The plants
we offer are well established in pots and will flower abundantly the first season.
Price per pot. 25 cents: per 10 pots. \$2.00: per 100 pots. \$15.00.

Price per pot, 25 cents; per 10 pots, \$2.00; per 100 pots, \$15.00.

VARIETIES.

ABIGAIL. Flowers large rosy red with salmon tints at full maturity, showing yellow center. sy. A strong, vigorous grower and very early bloomer. Large, bright-

BETST. A strong, vigorous grower and very early est yellow.

CERISE QUEEN. Striking shade of cerise pink.
CHAMP D'OR. Large yellow, very free.

Bright scarlet maroon.

DUNDEE. Bright scarlet maroon.

ELIZA. Very vigorous, blooming in terminal clusters. Flowers large,

deep rose, shading to rosy pink at full maturity.

GLOBE D'OR. Bronzy yellow.

GOACHER'S CRIMSON. Very large crimson.

HANNA. Vigorous grower, flowers large, of a deep rosy red.

JANE. Early bloomer, flowers large and double to the center. Petals quilled, opening flat at the tips. Clear pink tinged with yellow at the base.

JERSEY. Large, pure white. JULIA LAGRAVERE. Crimson maroon.

LUCINDA. Large, purest white, quite double to the center, very abundant bloomer.
Miranda. Vigorous, hardy and very free flowering, medium size pompon,

rich crimson.

LLY. Vigorous, and very free bloomer, petals in whorls, and tubular, pointed at the tips, Clear pink, when fully expanded, showing yellow center, petals margined with crimson. MOLLY.

yellow center, petals margined with crimson.

Nancy. Large, pure glistening white, and at maturity showing rich yellow center, very effective.

QUEEN OF BUL. Beautiful violet rose.

QUEEN OF WHITES. Large, creamy white.

RHODA. Delicate shade of silvery pink.

SALLY. Large pompon, very double, yellow with crimson showing on the margin of the expanding buds.

SILVER QUEEN. Silvery pink.

WINDLASS. Rich orange yellow.

CLEMATIS RECTA. 2 to 4 feet, June. Pure white.
COLUMBINE ROCKY MOUNTAIN BLUE (Aquilegia Coerulea). 2 to 3 feet.
May to June. The beautiful western species with long spurs.

GARDEN HELIOTROPE, see Valeriana.

GAS-PLANT. see Dictamnus.

GARDEN HELIOTROPE, see Valeriana.
GAS-PLANT, see Dictamnus.
GERANIUM PLATYPETALUM. 2 feet. June to July. Large, purple-blue flowers, with handsome foliage.
GERANIUM SANGUINEUM. 1 foot. June and July. Large deep crimson-purple flowers. Graceful foliage, which becomes most attractive during the Fall.
GERANIUM SANGUINEUM ALBUM. 1 foot. June and July. A pure white form of the preceding. Very attractive.

German Iris.

(Iris Germanica) (Fleur-de-Lis).

These splendid garden plants have been favorites for years and are so hardy and easily grown and produce such a bountiful display of beautiful flowers that they can be considered one of the most important of our garden plants. They are of easiest culture, requiring no special treatment, and will remain for years, even enduring neglect and produce regularly each year their fine display of blooms.

VARIETIES.

AB-DEL-KADHIR. Mid-season, medium to tall, old gold, penciled at base, richly

veined deep royal purple.

AURIOLE. Late, medium dwarf, yellow, beautifully penciled deep velvety purple.

BLUE-BIRD. Medium to tall and quite early, full, incurved, of a clear deep blue color

BRIDESMAID. Medium to tall, mid-season; very full and incurved, light rosy blue, changing to deeper blue on the margins, which are exquisitely penciled. CANDICANS. Mid-season and medium size of growth; very little incurved and of the clearest pale blue; freely veined with splashes of pure white. Very distinct

tinct CELESTE. Mid-season to late; clear pale blue, shaded darker, large fine form. DR. THEMENT. Mid-season to late, medium to low; rosy-red, base white, chang-

ing to deep rosy-red veined deeper red.

EDITH COOK. Medium to low grower, mid-season to late, of strong vigorous habit; of the clearest deep yellow, freely splashed rosy purple.

GARFIELD. Tall, medium to late, light blue, changing to rosy lilac on margins;

JACKMANII. Tall and late, robust, of splendid habit; old gold, changing to a rich yellow buff beautifully suffused and shaded with deep rosy tints.

KHARPUT. Mid-season to late, tall, clear blue suffused purple, immense flowers.

MAD. CHEREAU. Late and tall, of beautiful and unique form; pale blue and

penciled with darker blue on margin.
MAD. MODESTE. Medium to late. Incurving, pale blue splashed and margined

purple. PALLIDA. Very late and tall. Resembles the early Florentine in its full large form.

Color rich blue, being suffused with velvety royal purple.

POND POINT. Tall, very vigorous. very large and handsome, clearest deep blue.

QUEEN OF MAY (Maxomosata). Medium to late, tall, perfect form, clearest rose slightly buff at base, shading into clear rose-veined with darker rosy-red.

SILVER KING. The earliest of the tall large type, of ideal full form, and when first unfolding is of the softest pale blue, white at maturity.

WALNERI. Mid-season and medium grower, clear light blue suffused with royal

purple.

Special:—German Iris prices. Strong single crowns 15 cents each. \$1.00 per ten. \$8.00 per 100.

NOTE:—Plant several crowns close together if a clump effect is wanted. FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE PAGE 38.

THE ELM CITY NURSERY COMPANY

*Japanese Iris.

(Iris Kaempferi or Laevigata.)

This splendid type of Iris is one of the most important of our strictly hardy permanent garden plants. For effective habit and gorgeous display of color it stands alone at its blossoming season, which is June 20th to July 20th.

VARIETIES.

BLUE JAY. Late, medium tall, vigorous, very large, splendid form; deep yellow

at base, changing to a soft azure blue.

DINAH. Mid-season, very tall, medium to large, double, deep blue suffused with

royal purple.
FRANCELLA. Early medium tall, medium size, segments uniform size and broad, almost white at base, changing to deep rose at margins, effective.
GOLD-BOUND. Medium, tall, pure double white.
KATHRYN. Early, tall and vigorous; broad, pale blue, beautifully veined royal

purple. KUMO-NO-SHO.

purple.
KUMO-NO-SHO. Double, mid-season, tall, good size, white at base; freely veined rose, which suffuses the segment at the outer margin.
KUMO-NO-NYE. Late, double, splendid form, richest velvety royal blue, suffused slightly with royal purple, brilliant yellow throat.
OSHOKUN. Double, early, very tall and branching, flower large and showy, segments rich blue penciled deeper blue with white radiating lines.
PYRAMID. Early to late, very strong grower and free bloomer, of largest size and splendid form, segments light blue at base, to deep blue on margin, suffused with royal purple.

with royal purple.

ROSY-MORN. Mid-season, tall and graceful, white at base, shading to deep rose.

URC-IN. Double, mid-season, tall and much branched, flower large, pale blue white changing to rich clear blue.

Iris Pumila.

(Hybrids).

This is a new race of charming Iris, intermediate between the early Pumila and Germanica, in time of blooming and size of flower.

ATROVIOLACEA. 6 to 10 inches. Medium dwarf, early to mid-season. Violet mauve to maroon red, paling to light on the margin.

BRIDE. 12 to 15 inches. Mid-season. Clear ivory white, veined with green and

yellow BRIDESMAID. 10 to 15 inches. Clear white, slightly splashed with light blue, veined with yellow and green.

CYANEA. 6 to 10 inches. Deep velvety blue, painted with white veinings.

EXCELSA. 8 to 12 inches. Clearest deep yellow with slight maroon splashings

beautifully veined. FAIRY. 10 to 15 inches. Pale blue to white, freely splashed with varying shades of blue from faint to the deepest blue.

FORMOSA. 6 to 12 inches. Royal blue to deepest velvety royal purple, orange at base.

LUTEA. 10 to 15 inches. Mid-season. Clear yellow to deeper yellow splashed with attractive markings of blue and maroon.

*Other Iris.

IRIS OCHROLEUCA. 3 to 4 feet. June. A noble species, large pale yellow flowers, a most desirable variety.
 IRIS ORIENTALIS SNOW QUEEN. 2 feet. June. A handsome variety

with beautiful pure white flowers, very free flowering.

IRIS PSEUDACORUS. 3 to 5 feet. June. Very robust, flowers of medium size, intense clear, deep yellow.

IRIS SIBERICA. 2 to 3 feet. June. Robust growers, foliage somewhat like the Japan Iris, Flowers borne on slender stems, well up above the foliage; color, clear rich blue. Flowers are somewhat larger than our native field iris. In bloom with the late German Iris. Very desirable and especially so for naturalizing.

IRIS SIBERICA ALBA. Similar to preceding but white.
IRIS SIBERICA FL. PL. Double form. Blooms late with the Japan Iris.
IRIS SIBERICA VAR. ORIENTALIS. 2 to 3 feet. June. A beautiful Iris of the most vivid velvety deep blue, of medium size and blooming with great free-

IRIS SPURIA. 3 to 4 feet, June. A distinct species with beautiful soft porcelainblue flowers, very attractive.

FOR PRICES OF THE ABOVE IRIS SEE PAGE 38.

THE ELM CITY NURSERY COMPANY

Lilies.

(Hardy Garden).

The family of lilies includes some of our most beautiful garden flowers and fortunately some of the most beautiful of them are perfectly hardy. There are many of them of easiest culture and even the less easy ones to succeed with, bountifully

*ADAM'S THREAD AND NEEDLE (Yucca Filamentosa). One of the most valuable plants in cultivation for general garden and landscape planting. Its dagger-like foliage, which is evergreen, forms an attractive clump of foliage, from which appear, in July and August, tall and stately spikes 3 to 6 feet high, bearing large panicles of white lilies, which are most picturesque and decorative. BELLADONNA LILY (Amaryllis Hallii). 2 feet. July and August. Beautiful flowers in umbels. 3 to 4 inches across, of a delicate lilac pink, very attractive. BLACKBERRY LILY (Belemcanda Chinensis). 2 to 3 feet. June and July. Yel-

low

- DAY LILIES (Funkia). These charming garden lilies are very useful in the hardy border, as a foreground to shrubbery groups and about the foundations of buildings, etc. Their clusters of heart-shaped leaves and graceful flower heads showing effectively. They thrive well in partial shade, as well as in full sunshine. The following varieties are all very desirable.

*BLUE DAY LILY (Coerulea). 2 feet. August, September. Dark green glossy foliage, flowers light blue.

*BROAD-LEAVED DAY LILY (Ovata). 2 feet. August and September. Large ovate foliage, flowers light blue.

*FORTUNE'S DAY LILY (Fortunei). 2 to 3 feet. July. Rare type. Large, glaucous, heart-shaped leaves, pale lilac.

*LANCE-LEAF DAY LILY (Lancifolia). 1 to 2 feet. August to October. Long glossy foliage, lilac flowers.

*SIEBOLD'S DAY LILY (Sieboldii). 1 to 2 feet. July and August. Another beautiful sort with silvery blue tint to foliage. Flowers pale lilac.

*VARIEGATED DAY LILY (Undulata). 8 to 12 inches. July and August. A very popular variety; leaves variegated white and green.

*WHITE DAY LILY (Subcordata). 1 to 2 feet. July and August. Large light green leaves, flowers purest white.

CORAL LILY (L. Tenuifolium). One of the most delicate and charming species. 1 to 2 feet high, with 1 to 15 or more nodding rich scarlet flowers.

ELEGANS LILY (L. Elegans). These hardy lilies are very showy and of easiest culture, producing, during the early summer, their brilliant flowers very freely.

The following are all attractive varieties.

VAR. AURORA. Deep rich orange, suffused scarlet.
VAR. BICOLOR. Bright red flushed orange, very showy and large.
VAR. LEONARD JOERG. Rich apricot spotted; very fine.
VAR. PAINTED CHIEF. Bright flame color.
VAR. ROBUSTA. Magnificent large flower; orange spotted black.
VAR. SANGUINEUM. Very rich dark red with few spots.
VAR. WALLACEI. One of the smaller and later forms; a very reliable one for genera use.

GOLDEN-BANDED LILY (L. Auratum). This is a most popular lily. No species ever had so much general favor. Flowers white, with a central golden band and numerous deep purple spots. Height, 2 to 6 feet. July and August.

HANSON'S LILY (L. Maculatum). Attains a height of 3 feet. Flowers reddish

orange, six to ten in a cluster; petals thick and durable.

MADONNA LILY (L. Candidum). Handsome, large, fragrant, pure white flowers.

Easy of culture; does best when left undisturbed after planting.

SPECIOSUM LILY WHITE (L. Speciosum Album). One of the best garden lilies; purest white. Very hardy.

SPECIOSUM LILY, RED (L. Speciosum Rubrum). One of the most showy of lilies of medium height and not difficut to grow in any good garden soil. Like the preceding other than color, which is rosy red, beautifully marked with

SPECIOSUM LILY, YELLOW (L. Henryii). A beautiful deep orange-yellow variety of the preceding, easily grown and very showy. 75 cents each.

TIGER LILY VAR. SPLENDENS (L Tigrinum). This is an improved Tiger Lily and a most beautiful lily for general use.

TIGER LILY VAR. DOUBLE (L. Tigrinum var. fl. pl.) Sinthan the flowers which are quite double. Very desirable. Similar to above other

TORCH LILY (Kniphofia Aloides). 3 to 5 feet. August to October. Orange and scarlet. Known as the Red Hot Poker. A desirable border plant.

THE ELM CITY NURSERY COMPANY

TORCH LILY (Kniphofia Pfitzerii). 2 to 3 feet. August to October. Rich orange scarlet, an ideal border plant, very attractive.

TURK'S CAP LILY (L. Superbum). This native ily is one of the finest and most hardy of all lilies. It often attains a height of 6 feet, and produces a large number of flowers. Its flowers are bright orange in color with dark spots.

YELLOW GARDEN LILIES. (Hemerocallis)

AURANTIACA VAR. MAJOR (H. Aurantiaca var.). Orange y and rare. 2 to $2\frac{1}{2}$ feet. June and July. Large and rich. 50 *EARLY LEMON LILY (H. Minor). 1 to 2 feet. Early June. Orange yellow, new 50 cents each. Striking

*EARLY LEMON LILY (H. Minor). I to 2 feet. Early sune. Striking lemon yellow, fragrant.

*EARLY YELLOW LILY (H. Dumortierii). 1 to 1½ feet. June. Deep yellow and fragrant, quite dwarf and makes a splendid foreground plant.

*LEMON LILY (H. Flava). 2 to 3 feet. June and July. Clear lemon yellow; fragrant. This old garden lily is a great favorite.

*MIDDENDORF'S LILY (H. Middendorfiana). 1 to 2 feet. June to July.

Deep golden yellow.
*ORANGE MAN LILY (H. var.). 1 to 2 feet. July and August.

deep orange; very beautiful.

*ORANGE LILY (H. Fulva). 2 to 4 feet. July and August. This grand old lily is now much in demand. It is splendid for naturalizing in large masses. Large quantities at special prices for naturalizing along

drives, etc.

ORANGE LILY VAR. KWANSO (H. var.). Rich orange red; semi-double; very effective and desirable.

ORANGE LILY VAR. VARIEGATA (H. var.). A form of the orange lily with variegated green and white foliage, which forms a very striking effect.

*THUNBERG'S LEMON LILY (H. Thunbergii). Late blooming Lemon lily. 2 to 3 feet. July and August. Fragrant and very desirable. Rich lemon yellow. lemon yellow.

*LILY OF THE VALLEY (Convallaria Majalis). A popular favorite and once planted increases in beauty for many years.

FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE PAGE 38.

Rare Japanese (Moutan) Tree Paeonies.

VARIETIES.

satin-pink petals with deep golden

center.

PRICES (strong field grown plants) Each \$1.50; Per 10, \$14.00; Per 100, \$125.00.

The Tycoon. The most gorgeous flower among all the Tree-Paeonies ever produced in Japan, with large, rosy-lilac ragged and undulated petals attaining to 16 to 17 inches across. Strong, heavy-rooted plants, \$5.00 each.

NOTE—Spring planting should be done just as soon as the frost is out of the ground, and Fall planting any time after October 1st.

Brooklyn, N. Y., April 24th, 1913.

I take pleasure in advising you that the last Paeony you sent me is a fine plant. I certainly appreciate your courtesy in seeking to satisfy me in this matter and wish to assure you that if there is any business either of my own or of my friends that I can direct your way I shall be happy to do so. P. M.

THE ELM CITY NURSERY COMPANY

Paeonies (Herbaceous).

The Paeony is to-day without a rival as a hardy garden favorite, and quite naturally so, as no other hardy garden plant thrives with as little special care and produces as fine a display of gorgeous blooms. The great diversity of color and form which can now be obtained in the new and improved varieties very much increases their value.

SELECTED LIST OF VARIETIES.

NOTE. The number to the left of the variety indicates the sizes we have to offer of that variety.

MONARDA, see Bee-Balm.

MONKSHOOD (Aconitum Autumnale). 5 to 6 feet. September, October. Deep blue A stately showy plant. blue. A stately showy plant.
MONKSHOOD (Aconitum Fisheri). 1 to 2 feet. August and September. Light

blue

MONKSHOOD (Aconitum Napellus). 4 to 6 feet. June to July. Deep blue. MONKSHOOD (Aconitum Napellus Bi-Color). 3 to 4 feet. July and August. Blue, mottled with white.
MOSS-PINK, see Phlox.
MYOSOTIS PALUSTRIS, see Forget-me-not.

MYRTLE BLUE (Vinca Minor). In 4 inch pots. 25c. each. \$2.00 per 10. \$18.00 per 100. One of the best evergreen plants for covering the ground and is a success in quite shady places provided the ground is fertile.

MYRTLE VARIEGATED (Vinca Minor Aurea). (New). A pretty golden variegated form of the preceding, a most useful plant and quite hardy.

MYRTLE WHITE (Vinca Minor Var. Alba). A pure white variety.

OENOTHERA, see Primrose.

PACHYSANDRA TERMINALIS. 6 to 8 inches. Foliage evergreen and very much resembles our interesting native wood plant, Princess pine. It is perfectly adapted to the shade under trees, and will form a solid evergreen covering where grass will not grow (pot grown).

PACHYSANDRA TERMINALIS VARIEGATA. A variegated form of the preceding (pot grown).

PAEONIA, see page 46.

PAPAVER, see Poppy.

*PEA PERENNIAL (Lathyrus Latifolius). 5 to 6 feet. June to October. Rosy pink.

*PEA PERENNIAL VAR. ALBA. (L. Latifolius var.). A white variety of preceding.

*PEA PERENNIAL VAR. MARY LOVETT (L. Lat. Var.). A beautiful pink variety.

PENTSTEMON BARBATUM. July and August. 2 to 3 feet. Brilliant red tubelike flowers in loose panicles.

PERIWINKLE, see Myrtle.

PHALARIS ARUNDINACEA, see Grasses.

THE ELM CITY NURSERY COMPANY

PHLOX, PANICULATA. Tall Garden Varieties. Hardy Phloxes are now among the most popular of hardy garden flowers and justly so. Perfectly hardy, easy to make thrive, and producing gorgeous color effects. The following list has been selected from our large collection as comprising the cream of the distinct colors. Other varieties can also be supplied.

ELIZABETH CAMPBELL. Bright salmon-pink with lighter shadings,

distinct eye, a much wanted shade in Phlox.

Fernand Cortez. Deep crimson, very dark center.

General Von Heutsz. Medium, scarlet, shaded rose with crimson-red eye a very desirable variety.

George A. Strohlein. Bright, scarlet, with crimson-red eye, enormous

flowers, an ideal variety.

Henry Murger. White, crimson carmine center, very effective.

Independence. Tall grower, late bloomer, fine large creamy white flowers.

L'EVENEMENT.

PANTHEON.

T. Dwarf, bright, soft pink, tinted salmon, very showy.
Tall bright rose, flowers very large.
ALLACE. Tall, pure white with bright crimson center, large flowers in immense panicles.

Selma. Soft, pale rose, distinct red eye; very effective.

Siebold. Bright vermilion-red, over-laid with orange-scarlet, crimson-red eye, very effective.

Tapis Blanc. Large pure white flowers, very dwarf, splendid for edging. RICHARD WALLACE.

Tapis Blanc. Large pure white flowers, very dwarf, splendid for edging Phlox beds and massing in the hardy border.

Von Hochberg. Tall, the ideal Crimson Phlox, the richest of its color.

April and May. Very desirable for carpeting *PHLOX AMOENA. 3 to 5 inches. the ground and for rockeries. Bright pink.

PHLOX DIVARIACATA (Wild Sweet William). 6 to 8 inches. April and May.

Lilac, showy; very attractive and desirable.

PHLOX OVATA. 5 to 6 inches. May. Low mat of evergreen foliage. Flowers

PHLOX OVATA. 5 to 6 inches. May. Low mat of evergreen foliage. Flowers rosy pink.

PHLOX SUBULATA (Moss Pink). 3 to 4 inches. May. Forms low, flat masses of evergreen foliage. When in bloom presents a solid mass of color.

*VAR. ALBA. A white form of the above.

*VAR. ATRO-RUBRA. Clear deep claret.

*VAR. SADIE. White, shaded with lilac.

PHYSOSTEGIA VIRGINICA (False Dragon Head). 3 to 4 feet. July and August. Effective spikes of clear pink flowers.

PHYSOSTEGIA VIRGINICA VAR. ALBA. 3 to 4 feet. July to August. A white

form.

PINKS, MAIDEN (Dianthus Deltoides). 6 to 10 inches. May to July. Small fragrant pink flowers. Evergreen bluish green foliage.
*PINKS SCOTCH (Dianthus Plumarius). 9 to 12 inches. May and June. Pink,

fragrant.
*PINKS, SCOTCH, VAR. HER MAJESTY (Dianthus Plumarius var.). 9 to 12 inches. May and June. Double white; fragrant. As large and finely formed

as a carnation pink.

*PINKS, SCOTCH, VAR. PERPETUAL SNOW (Dianthus Plumarius var.).
9 to 12 inches. May to July. Beautiful double white and very fragrant.
PINKS, SWEET WILLIAMS (Dianthus Barbatus). 1 to 2 feet. July to Septem-

Dear to the heart of many a flower lover, the literature of the old-time garden teems with pleasant references to this splendid plant. Perfectly hardy and easily grown, its brilliant flowers lasting for many weeks.

10 cents each, 80 cents per 10, \$7.00 per 100.

ATROCOCCINEUS FL. PL. Beautiful double velvety red.

HOLBORN GLORY. Large flowers in various colors, all showing a clear white eye, very distinct.
SINGLE VELVETY-MAROON. The most intense velvety crimson imagin-

able.

*PLATYCODON GRANDIFLORUM (Balloon Flower). 2 to 3 feet. June to October. Resembles the Campanulas. The large blue bell-like flowers are produced in clusters of from three to six. Plant blooms all summer and is very hardy and desirable.

*PLATYCODON GRANDIFLORUM VAR. ALBUM. 2 to 3 feet. June to October. A white form of the above. Both are fine for cutting.

PLATYCODON GRANDIFLORUM VAR. MARIESI. 1 foot. June to October. Deep blue bells 3 inches across.

POLEMONIUM COERULEUM, see Jacob's Ladder.

POLYGONIUM SIEBOLDI (Giant Smart Weed). 8 to 10 feet. July and August.

POLYGONUM SIEBOLDI (Giant Smart Weed). 8 to 10 feet. July and August. White.

THE ELM CITY NURSERY COMPANY

POPPY, ICELAND (Papaver Nudicaule). 1 to 2 feet. June to November. These interesting little poppies with their smooth bluish green foliage and bright golden to orange flowers produced at intervals all summer, are among our most

desirable garden plants.

POPPY ORIENTAL (Papaver Orientale). 2 to 3 feet. June and July. Great showy flowers of the most dazzling brilliancy. The following varieties are all wonderously beautiful, and cover a great range of color and form, and are every one of them worth planting.

VARIETIES.

DAZZLER. A most brillant, fiery scarlet. GOLIATH. Producing enormous scarlet flowers.
HARKNESS' SALMON. Very large, orange salmon.
MARIE STUDHOLME. Purest salmon with silvery shades and touched with

carmine at base of petals.

MASTERFIECE. Silvery blush pink, suffused mauve.

PRINCESS VICTORIA LOUISE. Soft salmon rose, shading to blush rose.

QUEEN ALEXANDRA. Beautiful clear rose salmon.

SILVERBLICK. Large handsome blooms of the true Oriental Poppy, scarlet.

PRIMROSE EVENING (Oenothera Serrulata). 1 foot. May and June. One of the best clear yellow flowers of low growth, especially showy in the early even-

respectively. The desired period for the desired period of the des

white, pink and red, excellent for cut flowers.

10 cents each, 80 cents per 10, \$7.00 per 100.

PYRETHRUM ULIGINOSUM, see Chrysanthemum.

RAGGED ROBIN, see Lychnis.

RANUNCULUS, see Buttercup.

RIBBON GRASS, see Grasses.

ROCK CRESS (Arabis Albida). ½ to 1 foot. April. A beautiful low-growing plant with velvety foliage, which is evergreen. Mass of snow-white in April, making it one of the earliest plants to bloom.

*POCK ROSE (Helianthemum Crossum), 12 to 15 inches. Voya poetty law graving.

*ROCK ROSE (Helianthemum Croceum). 12 to 15 inches. Very pretty low growing evergreen plant with beautiful orange colored flowers. An ideal plant for the

*RODGERSIA PODOPHYLLA. 3 feet. June and July. A stately plant both in foliage and flower. An ideal plant for margins of lakes and ponds.

*RUDBECKIA LACINIATA (Cone flower). 6 to 10 feet. July to September.

Golden yellow.

*RUDBECKIA LACINIATA VAR. FL. PL. (Golden Glow). 6 to 10 feet. July to September. One of the most desirable tall-growing hardy plants, too well known to need describing.

*RUDBECKIA LACINIATA, RAYS OF GOLD. An improved form of Golden

Glow

RUDBECKIA MAXIMA. 4 to 5 feet. August and September. A stately plant with large glaucous foliage and great showy flowers of clear bright yellow, with

dark brown disc in center.

*RUDBECKIA NITIDA, AUTUMN SUN. 4 to 6 feet. September and October.
Long broad petals of bright yellow, very attractive. Excellent for cut flowers.

*RUDBECKIA SPECIOSA VAR. NEWMANII. 2 to 3 feet. July and August.

Pure yellow, dark disc.

*RUDBECKIA SUBTOMENTOSA (Black-Eyed Susan). 2 to 3 feet. July to October. Yellow, dark cone.

SALVIA AZUREA GRANDIFLORA (Meadow Sage). 3 to 4 feet. August and September. Beautiful spikes of sky-blue flowers produced in the greatest pro-

fusion, a very desirable plant. SANDWORT (Arenaria Grandiflora). 6 inches. May. Close-growing evergreen plant, forming a carpet of verdure. Very desirable for rock work; flowers pure

white

*SAXIFRAGA CRASSIFOLIA (Rockfoil). 1 to 2 feet. May. Rose lilac.

SCABIOSA JAPONICA. 18 to 24 inches. August to October. Beautiful blue flowers, freely produced.

SEA HOLLY (Eryngium Planum). 3 to 4 feet. July to August. Finely cut shiny foliage with thistlelike flowers of amethystine blue.

SEA LAVENDER, see Statice.

SEA PINK, see Thrift.

San Francisco, Cal., Jan. 8, 1914.

Sedums arrived in fine condition and many thanks for your attention to this order. J. C. L.

THE ELM CITY NURSERY COMPANY

SEDUM (Stone Crop). A most interesting class of plants, all easily grown and indispensable for rock-gardening.

*ACRE. 2 to 3 inches. June and July. Yellow.

Very desirable.
*SPIRAEA FILIPENDULA DOUBLE. (Ulmaria Filipendula fl. pl.). 2 to 3 feet.
May and June. Beautiful fern-like foliage which remains fresh and green throughout the year. Double white flowers produced on spikes. Very *SPIRAEA JAP. VAR. GRANDIFLORA. 1 to 2 feet. May and June. Very graceful. white.

*SPIRAEA JAPONICA VAR. PEACH BLOSSOOM. 12 to 18 inches. May, June. Flowers deep delicate shade of pink.
*SPIRAEA JAPONICA VAR. QUEEN ALEXANDRA. 12 to 18 inches. May, June. Flowers soft delicate pink.
*SPIRAEA PALMATA (U. Purpurea Var. Elegans). 2 to 3 feet. May and June.

*SPIRAEA PALMATA (U. Purpurea Var. Elegans). 2 to 3 feet. May and June. Light pink.

*SPIRAEA PALMATA VAR. RUBRA (U. Purpurea Var. Rubra). 2 to 3 feet. May and June. Deep rose red.

*SPIRAEA PENTAPETALA (U. Pentapetala Var. F. Pl.). 2 to 3 feet. May and June. Old garden plant; pure white flowers on spikes and very attractive. STACHYS BETONICA (Betony). 1 foot. June. Attractive, clear pink spikes. STACHYS LANATA (Woolly Woundwort). 1 to 1½ feet. July and August. Valuable for its very pearly, velvety foliage and ruby red flowers on spikes. STATICE LATIFOLIA (Sea Lavender). 1 to 2 feet. August and September. A beautiful plant producing a cluster of broad evergreen leaves from 4 to 8 inches long, bearing small blue flowers in profusion. Thrives at seashore.

STOKESIA CYANEA, see Aster.

STONE CROP, see Sedum.

SUNFLOWER, GRACEFUL (Helianthus Orgyalis). 5 to 7 feet. October and November. Perhaps the most decorative of this useful class of plants. The tall flower spikes produced so late in the season with their medium sized blooms disposed all along the stems, make it especially useful, exceedingly effective both for garden and house decoration.

SUNFLOWER, MAXIMILIAN (H. Maximiliana). 4 to 6 f October. Fine golden yellow, valuable, late flowering plant. August to

THE ELM CITY NURSERY COMPANY

SUNFLOWER, MISS MELLISH (H. Rigidus Var.). 5 to 7 feet. July to September. Sparingly branched; rough; flowers rich yellow. One of the best. SUNFLOWER, PEARL (H. Decapetalus Multiflorus Fl. Pl.). 2 to 4 feet. August to October. Resembles a golden double dahlia. SWEET WILLIAM, see Pinks.

THALICTRUM AQUILEGIFOLIUM (Feathered Columbine). 1 to 3 feet. May

White.

THALICTRUM MINUS VAR. ADIANTIFOLIUM (Hardy Maidenhair). 1 to 2 feet. July and August. Foliage delicately arranged and graceful. THALICTRUM POLYGONUM (Rue Anemone). 2 to 3 feet. July and August.

White. A very graceful native plant which thrives well in the garden.
THRIFT (Armeria Maritima Splendens). 9 inches. July and August. Evergreen tufts of bright green foliage, from which innumerable flowers appear in dense

Pink *THYMUS CITRIODORA AUREA (Golden Thyme). Very trailing. Orange

scented

*THYMUS SERPYLLUM (White Mt. Thyme). May. Forming dense mats of dark green foliage with white flowers.

TIGER LILY, page 44.

*TRADESCANTIA VIRGINICA (Spiderwort). 1 to 2 feet. June to August.

Blue; grass-like foliage
TRADESCANTIA VIRGINICA Fl. Pl. A double form of the preceding.
*TRADESCANTIA VIRGINICA ALBA. White form, and very attractive.

TRIDESCANTIA VIRGINICA ALBA. White form, and very attractive.

TRIDMA or TORCH LILY, see Lily, page 44.

TROLLIUS, see Globe Flower.

TUNICA SAXIFRAGA (Rock Tunica). 9 inches. July and August. A pretty tufted prostrate plant, with dark green foliage, and very pretty, small pink flowers produced in the greatest profusion resembling the flowers of Baby's Breath, blooming all Summer. A most attractive plant either for the rockery or the border.

ULMARIA, see Spiraea.
UNIOLA, see Grasses.
VALERIANA OFFICINALIS (Garden Heliotrope). 4 to 6 feet. June and July.

White, fragrant. An old garden flenotrope). 4 to 6 feet. June and July.

*VERONICA INCANA (Hoary Speedwell). 1 to 2 feet. July to September. Blue.

*VERONICA LONGIFOLIA VAR. SUBSESSILIS. 2 to 3 feet. July and September. Lovely spikes of the deepest clear blue make this plant very desirable, especially at their time of blooming, when blue flowers are very rare.

VERONICA SPICATA. 2 feet. June and July. Long spikes of beautiful blue

flowers.

*VERONICA SPICATA ALBA. 2 feet. July. A white flowered variety of the above

*VERONICA SPICATA ROSEA. 2 feet. July. Spikes of bright rose flowers, a very desirable plant.

VINCA, see Myrtle.

VIOLA, see Violet.
VIOLET, CRESTED (Viola Cornuta Hybrida). Beautiful pansy-like violets with glossy foliage; blooms all summer. Variety of color

VIOLET, CRESTED WHITE (V. Cornuta Var. Alba). Like the preceding; with pure white flowers.

LET, ENGLISH (V. Odorata Var. Fl. Pl.). The true double, sweet-scented English hardy violet. Color is of the deepest blue. VIOLET.

VIOLET, ENGLISH DOUBLE WHITE. (V. O. Var. Alba Fl. Pl.). Another beautiful form. Flowers double white very large, tinted with pale blue.

WINDFLOWER, see Anemone.

*YARROW, THE PEARL (Achillea Ptarmica Var. Fl. Pl.). 1 to 2 feet. May to Double white. A very effective plant, especially when in bloom. October. Much prized as a cut flower.

YARROW BOULE de NEIGE (Ball of Snow). An improvement on the preceding. YARROW PERRY'S WHITE (Achillea Ptarm, Var.). (New). A novelty of great merit superior to all other varieties, for cutting there is nothing to equal it. Plants in pots at 50 cents each.

*YARROW, RED (A. Millefolium Var. Rubra). 1 to 3 feet. June to October. Wine-red flowers, with aromatic fern-like foliage, which is very ornamental.

YARROW KELWAYI (A. Millefolium Var.). A decided improvement on the preceding, the flowers keeping their color throughout the season.

YARROW, WOOLLY (A. Tomentosum). 8 to 10 inches. June and July. A very attractive little plant, with handsome, deeply cut foliage, and bright golden yellow flowers most suitable for the rockery.

YELLOW LILIES, see page 45.

YUCCA, see Lily, page 44.

HARDY ROSES

ROSES FOR GARDENS are a specialty at the nursery, our sales amounting to many thousands annually. The plants are strong, field-grown bushes, large enough to make a sturdy growth and produce a profusion of bloom right away. This grade of plants is very popular with our customers.

Hybrid Roses.

Strictly Hardy Varieties.

This class of roses blooms profusely in June and at intervals throughout the mer and Fall. The popular hardy garden roses mostly belong to this class and Summer and Fall.

are always satisfactory.

Do not allow roses to suffer from want of plenty of fertilizer, as they are gross feeders, and only when they have plenty to feed on can they be expected to produce

best results.

Alfred Colomb. Brilliant crimson. Very large full form. Extremely fragrant.

*Anne De Diesbach. (Syn. Glory of France). Carmine, a beautiful shade; very large. A superior garden sort; fragrant.

fragrant.

Baron De Bonstetten. Rich velvety maroon; large, full. A splendid sort.

*Clio. Flowers large, of fine globular form, flesh color, shaded in the center with rosy pink; growth vigorous.

*Countess of Oxford. Carmine shaded violet, large and full.

*Francois Levet. Cherry pink; medium size; well formed; vigorous habit.

*Frau Karl Druschki. Flowers very large, beautiful, pure white. This is one of the best white hybrid perpetuals yet introduced.

uals yet introduced. *General Jacqueminot. Brilliant crimson; not full, but large and extremely effective; fragrant, and of excellent

habit.

Jules Margottin. Carmine rose, fine in open flower and in bud.

*Madame Gabriel Luizet. Pink, dis-

tinct, very large, cup-shaped.

*Magna Charta. Pink, suffused with carmine; full globular. Excellent rose.

*Margaret Dickson. Of magnificent form; white, with pale flesh center; petals very large, shell shaped.
*Marshall P. Wilder. Large, well formed; color cherry-carmine and very

fragrant.

*Mrs. John Laing. Soft pink; produced

on strong stems.
*Mrs. R. G. Sharman Crawford. pink, outer petals shaded with pale flesh, white at base of petals; of per-fect imbricated form.

*Paul Neyron. Deep rose color; by far the largest variety in cultivation.
*Prince Camille de Rohan. Deep velvety crimson; large, moderately full.
Tom Wood. Cherry red, full, finely formed, borne on long stems.
*Ulrich Brunner. Brilliant cherry red, a very effective color: flowers of fine

a very effective color; flowers of fine

form.

*Victor Verdier. Bright rose, with carmine center, a very clear shade of

Hybrid Tea and other Perpetual Blooming Roses.

Very free bloomers; hardy with slight protection.

Aennchen Muller. Brilliant carminepink.

Baby Dorothy. Dwarf rose with large clusters of blooms, same color as the

rose color. Very sweet.

*Caroline Testout. Large. Clear bright rose color. Very sweet.

*Capt. Christy. Flesh pink beautifully formed.

formed. *Clothilde Soupert. Very double, pearly

*Gruss an Teplitz. Color scarlet shading to velvety crimson, very fragrant.

*Killarney. A charming pink rose.

*Kaiserin Augusta Victoria. An extra fine white variety; perfect in form.

*La France. Delicate silvery rose, changing to silvery pink; very large, full.

*Maman Cochet. Large, full, clear carmine.

White Killarney. A pure white variety of the now well-known Killarney.

*White Maman Cochet. Pure white, tinged pink.

Wm. R. Smith. Large creamy-white with rose shadings, elegant form.

FOR PRICES OF ABOVE ROSES SEE PAGE 54.

HARDY ROSES

THE ELM CITY NURSERY COMPANY

Rambler Roses and other Hardy Climbing Roses.

Winter Pruning Work.

You can arrange with us to annually look over your grounds and attend to the incidental annual pruning work which may be required. If left in our charge you can depend upon its being done in a thorough and skillful manner.

Wakefield, R. I., May 6, 1913.

The fruit trees arrived Thursday and our gardener reports them in excellent condition. The apple trees we set out a year ago are doing well, and we haven't lost a tree. W. M. C.

SMALL FRUITS

Grapes—Hardy Garden Grapes.

* to left indicates that that variety can also be supplied in Fruiting size, stake grown.

*Bacchus. (Black). The wine grape, very rapid grower, fruit rich, sprightly

*Bacchus. (Black). The wine grape, very rapid grower, fruit rich, sprightly flavor, berries small in compact clusters.

Brighton. (Red). Bunches large and well formed; berries medium to large, of good flavor. Excellent early grape.

Campbell's Early. (Black). This superb new grape is fulfilling the promises made for it remarkably well. It forms large and handsome clusters, thickly set with large round berries. Flavor is rich, sweet and delightful. Very early.

Catawba. (Red). This excellent table and wine grape has round berries; when fully ripe they are a dark copper color.

Catawba. (Red). This excellent table and wine grape has round berries; when fully ripe they are a dark copper color.
*Concord. (Black). The fine market leader, with large, handsome clusters of large luscious berries. Entirely hardy, productive and reliable.
*Diamond. (White). This handsome and valuable grape is a seedling of Concord, has the same sturdy qualities of vine, and ripens its fruit several weeks earlier.
Eaton. (Black). Very large, a most delicious table grape of highest quality.
Niagara. (White). Its clusters are large and handsome, compactly filled with large berries and having a thin but tough skin. Flesh is slightly pulpy, tender, sweet and delightful

and delightful.

Pocklington. (White). Clusters and berries large, light golden yellow when fully ripe; sweet and tender, with little pulp.

*Worden. (Black). This seedling of Concord is larger than the type in bunch and berry, of better flavor, earlier, as hardy and healthy in every way.

Prices.

Blackberries.

Eldorado. Berries are large, jet black; large clusters; sweet, melting, fine flavor. Rathbun. Fruit borne on long stems in clusters; berry very large; sweet and luscious.

Snyder. Medium size, very hardy and enormously productive; has no hard core.

Total,

Nursery Department

We grow and supply the best grade of nursery stock the market affords. Our facilities are very complete, every department being under efficient management. That our methods are meeting with popular favor is evidenced by the rapid growth our business enjoys. By purchasing from our nurseries you are guaranteed High-Quality stock. Our nursery stock is grown under most favorable conditions, dug and packed by skilled and careful workmen, and can be depended on to produce maximum results when planted under favorable conditions. The nurseries are open to the public every day of the year, but positively no business will be transacted on Sunday.

Landscape Department

Where best results are anticipated in landscape and other gardening work, experience is a most important factor. Our Landscape Department is under well-equipped and expert management. We are glad to offer suggestions without charge to intending purchasers, but where landscape problems require special visits, plans, specifications, etc., a charge is made consistent with value of services rendered. We will be pleased to take up this matter more fully with those who are interested. Ample reference from those who have employed us.

Send for our cross-section *sketch-sheet* blank. On filling it out and returning it to us we will offer you valuable suggestions for your grounds without charge.

IMPORTANT LANDSCAPE PROBLEMS

It is seldom advisable to attempt to hurry through important landscape problems. Time enough should be given to work out an original idea, and thoughtfully get into shape necessary sketches, drawings and specifications, so that work can proceed methodically and, therefore, economically.

Popular Talks

Arrangements can be made for talks before Village Improvement Societies, Horticultural Societies, etc., on gardening, landscape and other kindred subjects, with or without lantern-slides.

Gardening Department

We maintain a force of competent gardeners who do gardening work in a thorough and practical manner. Pruning and otherwise caring for established trees, vines, etc., is a special feature of our work, and one that an owner can afford to put into experienced hands only. Many trees whose worth cannot be counted in dollars, which are perishing from neglect, can often be restored to health and given a new lease of life if given proper treatment.
